

# Cinematic Video Editor Portfolio Website — PRD

---

## Project Vision

Build a cinematic, immersive, and visually stunning portfolio website for a Creative Video Editor specializing in Instagram Reels, Music Sync Edits, Cinematic Short-form Content, and Viral Social Media Visuals.

**Primary Goals** Showcase editing talent professionally Create emotional visual impact Increase client inquiries Build a strong personal brand Present Instagram edits in a premium cinematic format **Target Audience** Content creators YouTubers Instagram influencers Music artists Social media agencies **Tech Stack** React + Vite Tailwind CSS Framer Motion GSAP + ScrollTrigger Lenis Smooth Scroll Optional: Three.js **Website Structure** Loader Hero Section Showreel Featured Projects Editing Vibes Software Skills About Services Testimonials Contact Footer **Design**

## Philosophy

The website should feel cinematic, immersive, premium, artistic, motion-driven, and emotionally engaging. It should not feel like a dashboard, template, or AI-generated website.

**Color Palette** Background: #050505, #0B0B0F Accent: Electric Purple, Neon Blue, Cinematic Red **Typography**

Clash Display Satoshi General Sans Inter **Animation Requirements** Smooth scrolling Parallax movement Blur transitions Hover autoplay videos Magnetic buttons Layered motion effects Cinematic reveals **Hero Section**

**Requirements** Fullscreen cinematic layout Background showreel Animated typography Floating video previews Call-to-action buttons **Featured Projects Requirements** Masonry cinematic grid Hover autoplay previews Cinematic overlays Interactive transitions **Editing Vibes Section**

Display animated floating tags like: FAST PACED, MUSIC SYNC, CINEMATIC, EMOTIONAL, STORY DRIVEN, VIRAL STYLE.

**Services Section** Reel Editing YouTube Editing Motion Graphics Color Grading Short-form Content **Contact Section** Instagram WhatsApp Email Discord **Performance Goals** Lighthouse score above 90 Optimized video loading Responsive design Smooth animations on mobile **Final Creative Direction**

The website should feel like a premium cinematic experience similar to award-winning motion design portfolios and creative editing studios.
